- \*Pull up all designs on your computer to see colors you will need, select colors that look good with your fabric. These are the thread colors you need to bring to the first class.
- Cut out all (7) 13" x 13" squares and all (4) 10" x 10" squares (you might want to cut an extra in case you mess one up)

**The first class or two will be primarily embroidering the designs so you will not need your rotary cutter, rulers or mat until all designs are completed. Once all designs are embroidered, you can bring a regular sewing machine instead if you want.**
